

Proposal for WordPress Development Services

This proposal outlines the services offered by a WordPress Developer who can assist you in building and managing your website using Elementor, custom themes, WooCommerce integration, payment gateway setup, redesigning, migration to WordPress, and CMS integration. Whether you are looking to create a brand-new website, make customizations, or optimize your existing site, this proposal covers all your needs.

Our services include:

1. WordPress Website Development from Scratch
2. Customizing Existing Themes
3. WooCommerce Integration and Setup
4. Payment Gateway Integration
5. Website Redesign
6. WordPress Migration
7. CMS Integration
8. Custom Code (PHP/JS)

Our goal is to ensure that your website is more than just an online presence—it's a powerful tool that helps your business grow. With expertise in WordPress, Elementor, WooCommerce, custom coding, CMS integration, and more, we guarantee to deliver a professional website that meets all your needs.

Feel free to contact us at rival.biasrori@gmail.com for further discussions.

Past Projects

Here are some examples of websites we have previously worked on:

- if.unram.ac.id - A university website with custom features.
- ft.unram.ac.id - A faculty website with online learning integration.
- starianti.nl - A personal website built for a client in the Netherlands.
- kipon.nl - An e-commerce website for a photography business.
- [sofiazorg](https://sofiazorg-n7tlq1xvdt.live-website.com/) - A healthcare website showcasing services and patient information.
